3.0 meter	P 88.00

Picture Hanging System

Our hanging systems, originally developed for galleries, enhance private homes and offices the world over. You never need to worry about *how* and *when* to change your displays - simply unhook your frame and replace it with another one; the rails and hanging wires allow you to move position within seconds!

No nails, no hooks, no hammering on your beautiful walls - yet complete freedom to hang your art frames.

Imported from Europe and of the highest quality standards.
